He fears the work in many districts is at a standstill. He

said in part:
"The interests of the American Bible society, like those of the general missionary boards, are very seriously involved in the flerce Balkan struggle now in progress. Especially in Bul-garia the demand for the Scriptures has increased marvellously during the From Sofia, the capital, came recently a most urgent petition for ten thou-sand New Testaments, which if sup-plied, could be profitably disposed of at once. "This interesting and importuante cry for the Bible is doubtless due, among other causes, to the striking intellectual and moral development that has been in progress. The Bul-garians, out of a grossly ignorant and degraded status, have been undergoing in recent years a remarkable transfor mation to the more Christian status of an intelligent reading and thinking people. But the country's interest has centred in the war and it has contrib-uted to its prosecution the mass of its fighting population."
